4. Primary ventilation windows off the porch
5. Aerial ladder to exposure 1/4 side of the building
6. Primary life hazard second-floor bedrooms and jumpers around the perimeter of the building(rear)
7. Concealed spaces, balloon construction
8. Exposure 4
9. Collapse hazard ceiling collapse
10. Worst-case scenario: Dry hydrant, strainer blocked, burst hose line, pumper failure, defective nozzle, floor collapse, May Day firefighter trapped, attack dogs in rear yard unable to ladder and vent.

Note: FDNY Fireground designation system (clockwise) 1. is the street 2. is the left side ( as you face the front of the building) 3. is the rear. 4. is the right side.
